

Bastían Martínez Henríquez

Santiago, Chile • hello@bastianleaf.dev • +569 6193 6184

Education

Universidad de Chile — Santiago, Chile
MS in Computer Science December 2023
Thesis: *Design and Evaluation of a Mechanics-Based Model for the Development of Computational Thinking Skills*

Universidad de Chile — Santiago, Chile
Bachelor of Engineering in Computer Science (Civil Engineering Degree) December 2020
Relevant Coursework: Neural Networks, Genetic Programming, Research Methods in Computer Science

Experience

Transapp Remote
Tech Lead January 2024 – Present

- Lead mobile development team for public and industrial transport apps (e.g., Red Movilidad, Transporte DET)
- Define architecture standards, CI/CD pipelines, and development workflows
- Coordinate cross-functional teams and mentor junior developers

Transapp Remote
Mobile Developer April 2023 – January 2024

- Spearheaded migration from native Android/iOS to Flutter
- Delivered features for urban and mining logistics applications
- Collaborated with product, design, and backend teams to deliver scalable solutions

ISCI (Institute of Complex Engineering Systems) Remote
Full Stack Developer January 2020 – April 2023

- Developed dashboards and queries for the Metropolitan Public Transport Directory
- Implemented CI/CD with Travis CI and Coveralls
- Processed COVID-19 data for the Ministry of Science using Python automation tools

Leadership & Activities

Club Ancients Chile Santiago, Chile
Founder December 2022 – April 2023

- Founded a national esports organization dedicated to Dota 2
- Promoted competitive gaming and community development in Chile and South America
